| Slack | Gsuite | Mattermost | Office Suite | Zoom | Systems Hardware | Interior Design | Client Support | Customer Service**

## Work Experience

### Kessel Run | United States Air Force

#### Portfolio Design Lead, T&G | 2022 - Present

- Lead product design for T&G (Targeting and Geo-Intel) software portfolio to support operational missions across the United States Air Force.
- Collaborate directly with users and leadership teams to identify and prioritize UX & capability needs across the enterprise.
- Manage design research and design delivery priorities across the product life cycle, aligning with the National Defense Strategy (NDS).
- Supervise a team of 6 designers and support an additional 12 design reports within the portfolio on upskilling and UX initiatives.
- Establish design career ladders and baseline designer skills for professional development with internal design standards.
- Facilitate design rituals across the product line to support 15 designers.
- Centralize documentation, templates, and resources across the WingC2 product line to reduce redundant design and research processes.

#### Product Designer | 2019 - 2022

- Led UI & UX design of various applications within an integrated enterprise B2B cloud-native application suite for the United States Air Force.
- Facilitated team meetings and brainstorming activities, such as Design Studios, Risk & Assumption prioritization exercises, Retrospectives, and Sprint Planning.
- Established processes to increase application consistency across the USAF application suite.
- Tested and de-risked product ideas by conducting qualitative user research with low-fidelity and high-fidelity prototypes.

### Hyland Software

#### Brainware Analyst - Lead | 2018 - 2019

- Led issue resolution and customization surrounding Brainware systems, utilities and CRM integrations.
- Compose internal documentation reflecting activity related to support resolutions, as well as, handled change requests or customer enhancements for development.

### Lexmark Enterprise Software.

#### Professional Services - Consultant | 2014 - 2018

- Led content team solution requirement research, design, and support.
- Professional level coordination, delivery and implementation of Lexmark ECM software.
